Applicable Standards

1. Fire Code: IFC 2015 & Chambers County Fire Code Amendments
 Building Code: IBC 2015
 Applicable NFPA Standards

2. The purpose of a site plan review is to review permitting for sites that do not involve the construction of buildings, in which certain fire safety features still apply, or to review the overall site plan of a complex or site involving the construction of buildings prior to obtaining building permits.

3. For above ground tank or storage review, please include location, capacity, and distance to structures and property lines.

Please complete the section below and indicate plan page numbers where applicable. These items have to be verified in order to complete the review. Please ensure each item is addressed.

Construction/Design IBC 2015 (Unless buildings are involved, it is understood all items may not apply).

Occ. Classification(s) (Ch. 3):	Occ. Load(s) (1004):
